Dry Cleaning

CENTURY LAUNDRY has long been aligned with our industry's most innovative manufacturing companies. **Unipress** dry-cleaning and shirt finishing machinery is our preferred choice for equipment replacement or new plant design. The world-wide leader in dry-cleaning machine technology, the **Firbimatic Group**, manufactures a wide range of *Cleaning Machines and Solvent Recovery Systems* that will utilize any of the latest industry developments including perchlorethylene, hydrocarbon, and GreenEarth. Additionally in order to provide product range and flexibility, we also represent the following companies and their manufactured products: **Fulton Boiler, Forenta, American Chiller, Iti, DEXTER, Continental-Girbau High Speed Washer/Extractors, Rema Vacuum, Quincy Air Compressors, Natco Condensate Retrieval Systems, plus many others.**
